CONTENTS OF VOLUME 342

September 1983

CAPÓ Luis A. & SILLAU A.H. The effect of hyperthyroidism on capillarity and oxidative capacity in rat soleus and gastrocnemius muscles. 1

ROTHWELL Nancy J., STOCK M.J. & THEXTON A.J. Decerebration activates thermogenesis in the rat. 15

BENOS Dale J. & BIGGERS John D. Sodium and chloride co-transport by preimplantation rabbit blastocysts. 23

HAMMOND P. & SMITH A.T. Directional tuning interactions between moving oriented and textured stimuli in complex cells of feline striate cortex. 35

NOTH J. Autogenetic inhibition of extensor γ-motoneurones revealed by electrical stimulation of group I fibres in the cat. 51

EL-SHARKAWY Taher Y. Electrical activities of the muscle layers of the canine colon 67

GOLD Michael R. & MARTIN A.R. Characteristics of inhibitory post-synaptic currents in brain-stem neurones of the lamprey. 85

GOLD Michael R. & MARTIN A.R. Analysis of glycine-activated inhibitory post-synaptic channels in brain-stem neurones of the lamprey. 99

CAHALAN Michael D. & PAPPONE Pamela A. Chemical modification of potassium channel gating in frog myelinated nerve by trinitrobenzene sulphonic acid. 119

HONGO T., JANKOWSKA E., OHNO T., SASAKI S., YAMASHITA M. & YOSHIDA K. Inhibition of dorsal spinocerebellar tract cells by interneurones in upper and lower lumbar segments in the cat. 145

HONGO T., JANKOWSKA E., OHNO T., SASAKI S., YAMASHITA M. & YOSHIDA K. The same interneurones mediate inhibition of dorsal spinocerebellar tract cells and lumbar motoneurones in the cat. 161

FERSTER David & LINDSTRÖM Sivert An intracellular analysis of geniculo-cortical connectivity in area 17 of the cat. 181

AZUMA Takehiko, OHHASHI Toshio & RODDIE Ian C. Bradykinin-induced contractions of bovine mesenteric lymphatics. 217

ARMITAGE G., HERVEY G.R., ROLLS Barbara J., ROWE E.A. & TOBIN G. The effects of supplementation of the diet with highly palatable foods upon energy balance in the rat. 229

NORTH R.A. & TOKIMASA T. Depression of calcium-dependent potassium conductance of guinea-pig myenteric neurones by muscarinic agonists. 253

DANGAIN J. & VRBOVÁ G. Elimination of polyneuronal innervation in a fast muscle of normal and dystrophic mice. 267

CHESNOY-MARCHAIS Dominique Characterization of a chloride conductance activated by hyperpolarization in *Aplysia* neurones. 277

BARISH Michael E. A transient calcium-dependent chloride current in the immature *Xenopus* oocyte. 309

PEATFIELD A.C. & RICHARDSON P.S. The action of dust in the airways on secretion into the trachea of the cat. 327

PEATFIELD A.C. & RICHARDSON P.S. Evidence for non-cholinergic, non-adrenergic nervous control of mucus secretion into the cat trachea. 335

MATTHEWS G. Physiological characteristics of single green rod photoreceptors from toad retina. 347

KING A.J. & PALMER A.R. Cells responsive to free-field auditory stimuli in guinea-pig superior colliculus: distribution and response properties. 361

MENSE Siegfried & STÄHNKE Michael Responses in muscle afferent fibres of slow conduction velocity to contractions and ischaemia in the cat. 383

BUTTLE H.L. The luteotrophic complex in hysterectomized and pregnant goats. 399

HODSON Stuart & WIGHAM Christopher The permeability of rabbit and human corneal endothelium. 409

WISEMAN G. Sites of dipeptide hydrolysis in relation to sites of histidine and glucose active transport in hamster intestine. 421

GUNNING Richard Kinetics of inward rectifier gating in the eggs of the marine polychaete, *Neanthes arenaceodentata*. 437

RICHARDSON K.C. & WYBURN R.S. Electromyographic events in the stomach and small intestine of a small kangaroo, the Tammar wallaby (*Macropus eugenii*). 453

PAUL D.H. & ROBERTS B.L. The activity of cerebellar nuclear neurones in relation to stimuli which evoke a pectoral fin reflex in dogfish. 465

GALLACHER D.V. Substance P is a functional neurotransmitter in the rat parotid gland. 483

NINOMIYA Jesus G. & SUZUKI Hikaru Electrical responses of smooth muscle cells of the mouse uterus to adenosine triphosphate. 499

GRUNDY D., HUTSON D. & SCRATCHERD T. The response of the pancreas of the anaesthetized cat to secretin before, during and after reversible vagal blockade. 517

HILAIRE G.G., NICHOLLS J.G. & SEARS T.A. Central and proprioceptive influences on the activity of levator costae motoneurones in the cat. 527

HOLZER P. & PETSCHE Ulrike On the mechanism of contraction and desensitization induced by substance P in the intestinal muscle of the guinea-pig. 549

EARM Y.E., SHIMONI Y. & SPINDLER A.J. A pace-maker-like current in the sheep atrium and its modulation by catecholamines. 569

GALLEGO R. The ionic basis of action potentials in petrosal ganglion cells of the cat. 591

BELMONTE C. & GALLEGO R. Membrane properties of cat sensory neurones with chemoreceptor and baroreceptor endings. 603

FINKEL Alan S. & REDMAN Stephen J. The synaptic current evoked in cat spinal motoneurones by impulses in single group 1a axons. 615

OCHOA José & TOREBJÖRK Erik Sensations evoked by intraneural microstimulation of single mechanoreceptor units innervating the human hand. 633

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

MANCHESTER UNIVERSITY MEETING

14–15 April 1983

DEMONSTRATIONS

Case R.M., Hunter M., Potter Alison J., Steward M.C. & Young J.A. The perfused rabbit mandibular gland: a model for studying salivary secretory processes. 1*P*

Ward K.M. & Wareham A.C. Dual-channel glass micropipettes for simultaneous measurement of membrane potential and ion activity. 2*P*

Brunt J.N.H., Garland H.O., Taylor C.J. & White S.J. The application of computerized image analysis to renal and cardiovascular physiology. 3*P*

Green R. & Greenwood S.L. Some methods in micropuncture. 4*P*

Grundy D., Scratcherd T. & Scratcherd T.J. Computer-aided analysis of gastrointestinal motility. 4*P*

Heylings J.R. A technique for studying the influence of luminal acid on frog gastric and duodenal HCO_3-transport *in vitro*. 4*P*

Howell T., Little R.A., Reynolds M.I. & Stoner H.B. Mobile apparatus for measuring the 'preferred hand ambient temperature'. 5*P*

Franks P.J., Hooper R.H. & Jones P.R.M. Apparatus for on-line estimation of effective pulmonary blood flow in man. 6*P*

Davies J.G., Forster I.C. & Sears T.A. A modular interface for the computer acquisition of multichannel neural data. 7*P*

Morton P.B., O'Neill P.A., Stark R.D. & Stretton T.B. A demonstration of methods for studying breathlessness. 8*P*

Cody F.W.J., Moore R.B. & Richardson Helen C. Analysis of cerebellar neuronal discharge, limb movement and e.m.g. in the cat. 9*P*

Cody F.W.J., Ferguson I.T., MacDermott N. & Richardson Helen C. Comparison of reflexes evoked by joint displacement, vibration and tendon taps in man. 9*P*

Rutishauser Sigrid C.B. Single pass perfusion of the isolated guinea-pig liver with Krebs-Ringer solutions: use in studies of bile secretion. 10*P*

Boyd R.D.H., Glazier J.D., Moore W.M.O., Sibley C.P. & Ward B.S. Measurement of the electrical properties *in vitro* of the pig placenta. 10*P*

Anderson R.J.L., Braganza Joan M., Case R.M., Khullar A.K. & Steven F.S. The 'endocrine' secretion of exocrine secretory products by the perfused cat pancreas. 11*P*

Burns P.N., Gowland M.R. & Rimmer S. The use of Doppler ultrasound in the detection of changes in blood flow in tumour circulation in the rabbit. 12*P*

COMMUNICATIONS

Garner A., Peters T.J. & Wilkes J. Demonstration of HCO_3^--activated Mg^{2+}-dependent ATPase activity in rat duodenal microvillus membranes. 13*P*

Flemström G., Garner A. & Hurst B.C. Influence of luminal chloride on feline duodenal epithelial bicarbonate secretion *in vivo*. 14*P*

Machen T.E. & Zeuthen T. HCO_3^-/CO_2 stimulates Na^+/H^+ and Cl^-/HCO_3^- exchange in the mucosal membrane of *Necturus* gallbladder epithelium. 15*P*

Chipperfield A.R. & Shennan D.B. Chloride dependence of diuretic-sensitive passive Na-efflux from human red blood corpuscles. 16*P*

Law R.O. The suitability of monovalent anions as replacements for chloride during *in vitro* studies using rat renal tissue. 17*P*
